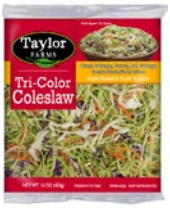
Coleslaw Dressing - for one person

Enough for half a 16 oz bag of predone "slaw" for those that live alone

1/4	cup	Hellmans mayonnaise	3/4	TB	Fresh Lemon Juice
1	TB	Honey			salt and freshly ground black pepper to taste



1. I run the package through the food processor to make the slaw more bite size. You can save the other half in an airtight container in the fridge it will last a couple of weeks without dressing on it.
2. Mix the ingredients and toss with the slaw. Let it sit for 3-4 hours at least.
